Subject: New Online Calculator is officially live/Meeting Reminder August 30

Dear Listserv members,

I am happy to announce that the new Online Child Support Calculator is officially live.

You can access the calculator at <http://csc.georgiacourts.gov>. Go to the website, and then click on the button that says Georgia Online Child Support Calculator. This will take you to the calculator Home page. At the top right side of the page, you will see a button to "Sign Up." If you click there, and enter at least the required information, you will establish your account. To log in, use the same user name and password each time, just like with any other website.

Some key features for the Online Child Support Calculator

- Georgia child support calculations will no longer require the use of Excel.
- The calculator will calculate monthly income from hourly, weekly, annual and other amounts entered.
- Printed forms will be shorter, because only entered information will print.
- Allows users to set up organizations and collaborate; all users within the organization can see the worksheets created within or shared with that organization.
- Users may share worksheets with opposing counsel or clients by email.
- Users can make worksheets available to court. This feature will allow judges and judicial staff the ability to easily find, view, and edit worksheets submitted by parties during hearings if they are inclined to do so.

We hope this becomes a valuable tool for the years to come.

Best regards,

Pat Buonodono

Staff Attorney, Georgia Child Support Commission
